

Important Notice:

Fertilisers have been misused by many individuals and terrorist organisations to cause widespread harm and destruction. For further advice and guidance, please contact your local Counter Terrorism Security Adviser via your local Police Service.

Don't be the weakest link in the chain.

Follow this 10 point code.

Please note: If storing or handling 150 tonnes or more of Ammonium Nitrate or Ammonium Nitrate based fertilisers, you must notify HSE.

In addition to the safe storage and handling of fertiliser advice available from suppliers, farmers should also take note of the information provided in this leaflet.

× Do not store fertiliser where there is public access.

× Do not leave fertiliser in the field overnight.

× Do not store fertiliser near to, or visible from the public highway.

× It is an offence to sell-on ammonium nitrate fertiliser without the proper certification.

✓ Do purchase your fertiliser from a FIAS approved supplier.

✓ Do retain and file all fertiliser delivery notes.

✓ Do wherever possible, and with regard to HSE safety guidance, store fertiliser inside a locked building or compound.

✓ Do fully sheet fertiliser when stored outside and regularly check to ensure that the stack has not been tampered with.

✓ Do carry out regular stock checks.

✓ Do report any stock discrepancy or loss to the police immediately.
